

# COBS DECT PHONE

**Now you can order our  
new handset C-2101,  
C-2105 & C-2110!**

## **Customer Focus!**

*We focus on areas where safe & secure wireless communication has the highest priority. We have deliberated customised our new handset to our customer within the Industry, Healthcare, Sercure Establishment & retail and office segments. please contact us for more information & datasheets about our new handset*

## **No Reasons to Worry!**

*The swedish Radiation protection Authority, SSI, is a Government authority with the task of protecting people & the environment from the harmful effects of radiation.*

SSI says that there is no reason for worry about radiation from wireless DECT phones. The output power of DECT is very low and there is no established evidence of any health effects from exposures to radio waces within the limits to woreless communications. DECT emits low levels of radio waves. Read more about DECT & health at [www.ssi.se](http://www.ssi.se) or at [www.dect.org](http://www.dect.org)
